ARISTONCAVI

THE CABLE EXPERIENCE

ARISTONCAVI
The cable experience

ARISTONCAVI STARTS ITS ACTIVITY IN BRENDOLA (VICENZA) IN 1958 AND CURRENTLY COVERS A SURFACE OF 35.000 SQM

Today it is one of the most important manufacturers of rubber insulated low voltage and medium voltage cables. Aristoncavi has moreover achieved leading positions in some market segments for the “special application” cables. In the last years the company has especially invested in the technological growth, by strengthening the technical department with a particular care for the Research & Development of cables dedicated to the industry and tertiary sectors.

EXPERIENCE

In over sixty years of history we have contributed to the technological evolution of our sector, becoming a real reference point both nationally and internationally.

INNOVATION

The unique skills of our team of specialists, combined with the efficiency of a state-of-the-art production plant, ensure cutting-edge products.

PARTNERSHIP

In addition to producing high quality cables, we offer both advice aimed at identifying the most suitable solutions and the necessary assistance for the development of the project.

The numbers of a company with 60 years of experience

55 Countries	86 %	4.000 Km/year	14.000 Tons/year	7.000 Tons/year
Our market	Export	Cable capability	Wrought copper capability	Rubber compounds capability

Our cables have been used by:

- Original Equipment Manufacturers
- Engineering Co. / Turn Key Project Co.
- Industrial Installers
- Public Companies (Railway, Subways and Highways, Energy Production/Distribution)
- Cables Distributors
- Wholesalers

Our cables have been used in/for:

 Water treatment plants	 Submersed and deep pumps for waste/drinking water	 Medium voltage pumps, floating docks and dredges	 Equipment energy supply and control lines offshore platforms	 Wind generators
 Tunnel boring machines energy supply lines	 Energy lines of railways and highway tunnels	 Low and medium voltage cables for shovels, drills, dredges	 Fixed energy distribution lines in mines	 Trains and subways lines
 Medium voltage cables for harbor cranes	 Low voltage cables for harbor cranes in reeling application	 Low voltage cables for harbor cranes in basket, festooning and spreader application	 Feeding landed planes	 Runway lighting system for airports

Industrial plants, subways, tunnels, mines, railways, ports, airports, convention centers, theaters, stadiums:

where energy must pass, we let it run. Since 1958 we continue to invest in research and production of innovative, reliable and customizable products, producing high-tech insulated electrical cables that today feed the development of over 50 countries worldwide.

We satisfy customers with our branches all over the world

Our laboratories

Our R&D Department is an important hub of ARISTONCAVI's product reliability and success. We have a quality laboratory fitted with the latest analysis instruments. Our plus values are: Close cooperation with our partners/customers: training and study. Presence of our staff on the field where the cables are used. Study of innovative and customized solutions. We have a close collaboration with the most important Italian Universities and the most prestigious internationally recognize laboratories.

Our strenght

Aristoncavi's solutions are targeted towards solving its customers' key issues including their requirements to increase productivity, increase utilization of their equipment, solve technical issues during the application and enhance safety conditions of their employees. Some of the key innovations developed and commercialized by ARISTONCAVI include:

- a huge range of products for covering several applications
- close collaboration with the customer to find the right product for his needs
- high customization of products
- a laboratory able to develop new compounds and a technical office capable of creating new design solutions

Certifications

Aristoncavi has always been committed to ensure quality to its customers.

Since 1995 we have been certified according to **ISO 9001** for the management of the quality system and **ISO 14001** for the management of the environmental system. We have obtained the **AEO FULL** (Authorized Economic Operator FULL version) customs certification, which allows a greater speed of procedures at the borders. Aristoncavi offers the maximum guarantee of product quality. We have collaborations with some of the most prestigious European certification institutes.
