

## ABOUT DAB

For over 45 years, DAB has been a main player in the sector of technologies for the movement and management of our most precious resource, water. DAB offers technological solutions capable of ensuring reliability and efficiency, and optimise energy consumption in domestic and residential, civil, agricultural and irrigation applications.

“Simple and efficient solutions are the biggest types of innovations.

The technology of our products speaks the same language of to as those who buy or use them. This is our strength.”

Sandro Stramare  
DAB Group CEO

**Founded:** December 1975  
**Headquarter:** Mestrino, Padova (ITA)  
**Total Turnover 2022:** € 430.000.000  
**People:** 1700 in the world  
**Web:** [www.dabpumps.com](http://www.dabpumps.com)

**Acquisition:**

- LEADER 1998
- GSM 2001
- TESLA 2005
- WACS 2007
- BRISAN 2008
- ALMA 2009

## OUR SOLUTIONS

### RESIDENTIAL BUILDING SERVICE

DAB produces reliable products, technically advanced, easy to install and efficient, ensuring high energy savings in the following domestic and residential application sectors: heating and air conditioning, water supply and pressurisation, irrigation and gardening, use of rainwater, draining, collection and disposal of wastewater, circulation and filtration of swimming pool water.

### COMMERCIAL BUILDING SERVICE

DAB develops technologically advanced solutions, highly efficient and reliable, for many commercial application sectors: from heating and air conditioning circulation systems, to water supply and fire-fighting system pressurisation, to the disposal of waste water.

### AGRICULTURE AND IRRIGATION

DAB offers pumping solutions for the extraction of water from the subsoil for agricultural and irrigation purposes. High-quality submersible pumps and motors, reliable and capable of guaranteeing high energy efficiency. A wide range to meet the needs of any type of system, up to industrial and aqueduct applications.

## OUR SERVICES

DTraining is DAB's training institute for spreading and sharing the company's know-how in the world of water distribution technologies, now even better with the DLearning platform for online training and webinar programmes available in six languages, with on-demand and live training services.

DService offers pre- and post-sales technical consultancy with an extensive network of support centres throughout Italy. The highly qualified personnel assist the customer in the selection of the product best suited to requirements, arrange for installation with operating tests, and offer specific support in all matters.

**CARING FOR THE FUTURE**

It's not just a matter of talking about performance or technical features, or even keep word together ing that we are better than the competition.

We need to start from people; from users. And if we give them something that can simplify or improve their lives, then they will be happy to follow us.

**RESPONSIBILITY**

We believe that the safeguarding of the environment is possible not only through eco-friendly products but most of all thanks to responsible individuals. This is why we try to come up with reduced consumption products, work on projects with a low environmental impact, select partners and suppliers consistent with our ethics, and implement green codes of conduct to increase the awareness in all those working at DAB of the importance in reducing waste and in respecting the environment, start ing from the most trivial daily activities, both within and outside the company.
